

**SUMMARY OF MANDERSTAM'S RECENT EXPERIENCE IN  
RUBBER AND PLASTICS**

2001-2004	UK-Jersey	Expert witness report on the failure of plastic piping system and valves leading to spillage of hydrochloric acid and claim for £1 million damages.
2003	Eritrea	Feasibility study on the production of plastic pipe and fittings for the building industry.
2002	Saudi Arabia	Market and techno-economic study on the production of polypropylene from natural gas.
2001	Egypt/EU	Technical audits on Egyptian plastic injection moulding and extrusion factories.
1999	European Bank for Reconstruction and Development EBRD	Market study on the European supply of ion exchange resins used in water purification.
1996	Abu Dhabi	Establishment of the production of PVC extruded pipe fittings for the building industry.
1994	Saudi Arabia	Techno-economic study on the manufacture of automobile tires in association with Avon.
1992	United Nations Industrial Develop an Organisation	Preparation of profile for the manufacture of rubber belt drives.
1992	United Nations Industrial Development Organisation	Preparation of profile for the manufacture of PVC extruded pipe and fittings.
1992	United Nations Industrial Development Organisation	Preparation of profile for the manufacture of plastic water filters.
1989	Ivory Coast/Luxembourg	Establishment of production facilities to utilise latex rubber for the manufacture of surgical gloves.
1989	EU/China	Feasibility study on the manufacture of refrigerators.
1989	Haiti/France	Feasibility study on the establishment of thermoforming and blow-moulding production lines.
1988	Kenya	Diagnostic/prescriptive study of PVC coating and calendaring lines and local market research.
1987	Saudi Arabia	Feasibility study for automobile reclamation review technologies, costs and markets for steel and rubber scrap.
1987	United Kingdom	Production of vinyl chloride and PVC.
1987	United Kingdom	Production of ammonia, urea, ammonium nitrate, potassium nitrate, chlorine, vinyl chloride and PVC in an integrated complex.
1986	Greece	Market survey of plastics with special reference to PVC and of a range of rubber products.
